

Law Firm Cambridge

Law Firm Cambridge - Leading the way in the private equity market, our team has been extensively involved in some of the most significant private equity dealings in the history of our nation. We work together with the private equity firms and financial institutions for assistance in issues related to financial transactions and in dispositions and acquisitions of companies. Our team assists private equity fund sponsors in the ongoing maintenance and formation of funds.

We have various service areas which help to compliment our private equity team. To be able to offer successful private equity investments and management of portfolio companies, we have gained extensive experience to provide our private equity clients with capital markets, banking, mergers and acquisitions, tax, antitrust, intellectual property, real estate, pensions and benefits, corporate governance, employment and labour, environmental, restructuring and insolvency.

In the private equity market, we have built contacts and relationships together with Canadian, American, and international clients. Our close relationships will help allow us to foresee possibilities and connect our clientele to each other for their mutual benefit. Some of these relationships comprise public companies and private companies, institutional investors, leading private equity firms, pension funds, financial institutions, entrepreneurs and venture capital firms. Our private equity clients benefit from the sources of debt financing wherein we could connect them. If our clients want to buy or sell businesses, we can introduce them to probable buyers or sellers.

We are normally called upon by the lead counsel in foreign transactions to provide domestic legal recommendation and help with transaction execution. We regularly collaborate together with worldwide law companies in cross-border private equity transactions that otherwise have global components. In foreign or overseas transactions, we work together with top foreign law firms in order to get advice concerning foreign legal considerations.
