Our clients comprise individuals, families, business owners, charitable and non-profit organizations. Estate plans could range in complexity from the comparatively easy family home transfer plan to the transfer of a business's ownership and control in a smooth and tax efficient manner. As part of our estate planning practice, we assist clients in formulating and implementing plans, including the preparation of required papers. Among the tools we can integrate into estate plans are Health care Proxies, Wills, Living Trusts, Life Insurance Trusts, Power of Attorney and Supplemental Needs Trusts.

We understand that people can get stressed when planning and administering an estate. We have sensitive and experienced lawyers to offer needed quality assistance in a cost-effective, attentive and compassionate method. When a death occurs, surviving family members depend on the experience and knowledge of our lawyers to assist them with the administration of the estate and trusts. Our experience include handling creditors, filing estate tax returns, probating wills, and decreasing estate income tax and estate tax. When litigation of estate matters is inevitable and required to protect the interest of the estate, its beneficiaries and its fiduciaries, our litigators have the experience to act in their clients' best interests.
