Wrongful Death

Deaths of a families loved one cause by another's carelessness can result in a wrongful death claim. Wrongful death claims, like personal injury claims, could result when there has been neglect leading to car, truck, and motorcycle accidents, workplace accidents, malpractice, and death caused by defective products.

Our wrongful death trial attorneys use a compassionate yet aggressive approach to be able to acquire full compensation and justice for our clients. Our aim is to arrive at an outcome that provides for the client's needs in the present and within the future.

Usually just surviving children, spouses, and others in particular relationships with the decedent are qualified to bring wrongful death claims. Other people who were dependent upon the decedent at the time of her or his death may have a claim in some situations.

Our experienced attorneys are available to meet with you in the evening, on weekends, at your house (or anywhere) for a free consultation if you have sustained a serious injury or lost a loved one because of the negligence of others.
