

Criminal Defence Lawyers Cambridge

Criminal Defence Lawyers Cambridge - Our firm specializes in providing legal suggestion in technology law for technology-related companies. The growing field of technology law now includes e-commerce, computer hardware and software, multimedia, pharmaceuticals, biotechnology, telecommunications, television and film, broadcasting, interactive media, as well as Internet-related industries. Today's technology businesses require professional suggestion suited to their unique needs.

Our firm concentrates on technology law in the field of mergers, public and private financings, divestitures and acquisitions, technology transfers and licensing agreements. Clients seek out our services and our technology law experts for particular assistance connected to contract negotiation and other different transactions. Other services include intellectual property and employment audits, the preparation of agreements, like employment and consulting agreements, and agreements connected to technology marketing and distribution. Intellectual property protection concerns copyrights, trade-marks, industrial designs, trade secrets and patents. E-commerce problems include website development and infrastructure, Internet access, and maintenance agreements.

Working in conjunction with Commercial, Securities, Intellectual Property, Labour & Employment, and Tax & Trusts lawyers, our lawyers to give recommendation to technology clients on a wide range of corporate matters. Technology law experts work with private venture funds which give capital to emerging technology businesses.

In infringement cases, our litigation lawyers represent our clients interests before all levels of court related to trade-marks, trade secrets, patents or copyrights. Before the situations escalate, our teams of litigation lawyers act quickly to solve employment, intellectual property, contractual and financing disputes. The early identification of likely problems is a top priority. To avoid problematic matters related to false and misleading promotion along with unfair trade practices, clients receive suggestion concerning the legalities of advertising and the correct marketing of services and products. Advice is given on such legal issues as trade-mark use and registration, privacy, packaging and labeling, and comparative advertising.
