

Patent Lawyer Cambridge

Patent Lawyer Cambridge - The lawyers within our company specialize in intellectual property rights. Our firm fully knows that many businesses view their intellectual property as their most valuable asset. To be able to maintain and attract market share, intellectual property is important. It defines your company in the market place, whether through patents which exclude competitors, trademarks that identify your products, or copyright which stops unauthorized copying of your intellectual assets.

We have years of experience in the effective resolution and practical management of intellectual property disputes at all levels of the courts. Our clients comprise a wide range of industries, from start-ups to worldwide businesses.

Our firm believes that the main concern should be the client's objectives and what makes sense from a business point of view. Not each infringement of intellectual property rights necessarily warrants a court action. Intellectual property litigation is costly due to the complexity of thorough analysis of rights and utilizing right experts. Where infringement disputes are simple and straight-forward, disputes often can be resolved through negotiated agreements together with built in deterrence conditions. In circumstances where court action is required, we utilize strategies which are compatible with a business-oriented approach.

Our office and its lawyers are extremely experienced and skilled at acting for our clients in claims of intellectual property infringement. Our well-known litigators have the experience to communicate to the courts the technical issues involved, whether you are an owner of intellectual property pursuing infringers or need defending against allegations of intellectual property infringement. We provide legal advice and representation in disputes related to copyright, patents, trademarks, industrial design, trade secrets, domain names, interlocutory injunctions ("emergency" relief from infringement until trial) and Anton Pillar Orders (seizure orders and civil search).
