

Crown Attorney Cambridge

Crown Attorney Cambridge - We offer advice and services to different large and small, private and public companies regarding business concerns. Non-profit entities and religious corporations are among the organizations we likewise advise.

We work closely with our clients to help them form publicly traded and privately held corporations, limited partnerships, limited liability companies, sole proprietorships and partnerships. We also help our clients as well as their accountants to make certain that their business transactions are structured in a way that is the most tax advantageous. We think about both longer-term estate tax implications and short-term income tax considerations. In our work with small and big mergers and acquisitions, we take into consideration tax, legal and business implications while structuring de-acquisitions and acquisitions in the way most beneficial to our clients.

We are knowledgeable in structuring equity arrangements, such as re-capitalizations, for businesses raising capital. Our objective is to ensure compliance with applicable laws in association with SEC, securities offerings and state regulatory compliance.

Our services to clients comprise the following: negotiating, drafting and reviewing capital business agreements as well as other arrangements like for example joint ventures agreements, sales and manufacturer's representative agreements, confidentiality, non-competition and licenses agreements, distributorship agreements, and employment agreements. We are expert at drafting and preparing stock awards, phantom stock arrangements and stock options for selected workers.

We have skill in assisting family businesses with the transition of ownership to a later generation or a group of employees.
