

## Cambridge Accident Lawyer

Cambridge Accident Lawyer - Our company of Intellectual Property lawyers know how much value and importance you put on intellectual property. We offer a broad range of legal services to be able to help you protect and license your intellectual property to trade secrets, trademarks, copyright and industrial designs. Our clients are those included in the use, creation, licensing, protection and acquisition of intellectual property. Our IP lawyers have several years of knowledge securing trademark, patent, industrial design and copyright registrations domestically and globally. We are experienced at enforcing your intellectual property rights.

We provide the following Patent services: filing, prosecution and preparation of patent applications; prior art searching; licensing and assignments; enforcement.

We likewise offer advice and services for Trademarks including: searching and opinions relating to registration of word, design, certification or public official marks and distinguishing guises; preparation and filing of applications for registration; licensing, assignment and franchising agreements; opposition proceedings before the Trade-mark Opposition Board; passing-off opinions and infringements; renewals and expungement (removal) applications; trademark defense and enforcement.

For certain Copyright matters, we provide searching; licensing of literary (including software), musical and dramatic works; prosecution, preparation and filing of applications for registration; infringement opinions; assignment and sale of copyright and copyright protected works; copyright enforcement and defense.

We can assist your company with the protection of Trade Secrets in order to keep your competitive advantage. We can craft agreements and programs so as to protect confidential data.

For Industrial Designs we offer searching and availability opinions; licensing and assignment; preparation, filing and prosecution of applications for registration.

Our clients come from a variety of trades like for example hotels, agriculture, entertainment, travel, manufacturing and technology.
